# KeyCubby

Managing keys has never been easier or more secure. KeyCubby is a state-of-the-art smart locker system designed to streamline key storage, access, and management for property managers, car rental companies, shared workspaces, and more. Say goodbye to lost keys and time-consuming manual processes—KeyCubby is here to revolutionize the way you handle keys.

---

## How KeyCubby Works

- 1. Smartphone Access:** Users receive a unique code to access their assigned KeyCubby.
- 2. Secure Storage:** Keys are stored safely inside tamper-proof lockers.
- 3. Cloud Monitoring:** Administrators can track all activity in real time through the cloud-based management system.
- 4. Easy Return:** Users return keys to the locker and complete the process with another QR scan.

## Key Features of KeyCubby

**Cloud-Based Control:** Monitor and manage all locker activity in real time via our web application.

**Access Logs:** Maintain a full record of who accessed which keys and when, providing accountability and transparency.

**Customizable Configurations:** Choose locker sizes and layouts tailored to your needs.

**Smartphone Integration:** No app downloads required—users can access lockers via a web browser.

**Tamper-Proof Design:** Built with robust materials to ensure security and durability.

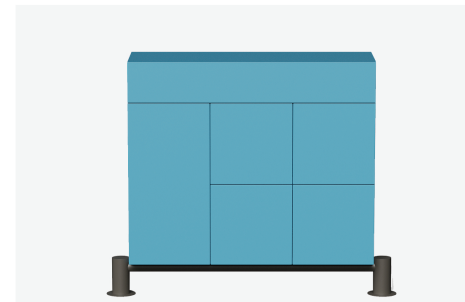

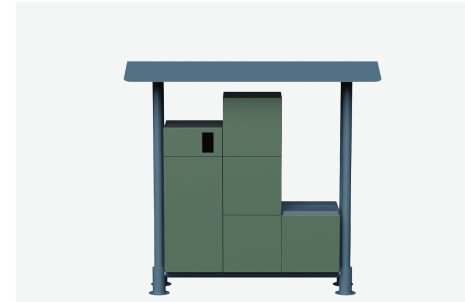

**Open API:** Integrate with existing reservation systems via our open API.

# UrbanCubby

## Revolutionizing Smart Storage for the Sharing Economy

UrbanCubby is more than just a locker system— it's a transformative platform designed to make sharing, sports, and public space management more efficient and accessible. Our modular, LEGO-like smart lockers empower individuals, organizations, and communities to embrace sustainability.

## Use Cases and Impact

### Public Sharing Initiatives:

UrbanCubby supports local governments in enabling sharing projects like library of things, fostering sustainability and promoting the sharing economy.

### Sports & Recreation Facilities:

Enhance the user experience with autonomous equipment management, saving on operational costs and improving service.

### Private & Corporate Solutions

Companies can improve employee well-being by offering shared sports equipment or resources during breaks, boosting engagement and productivity.
