Where UrbanCubby Works Best

Public Sharing Systems

Enable community sharing programs such as libraries of things and shared equipment.

Sports & Recreation

Store and manage sports gear and equipment in parks, gyms, and recreational facilities.

Cities & Public Infrastructure

Create smarter public spaces with accessible and secure storage.

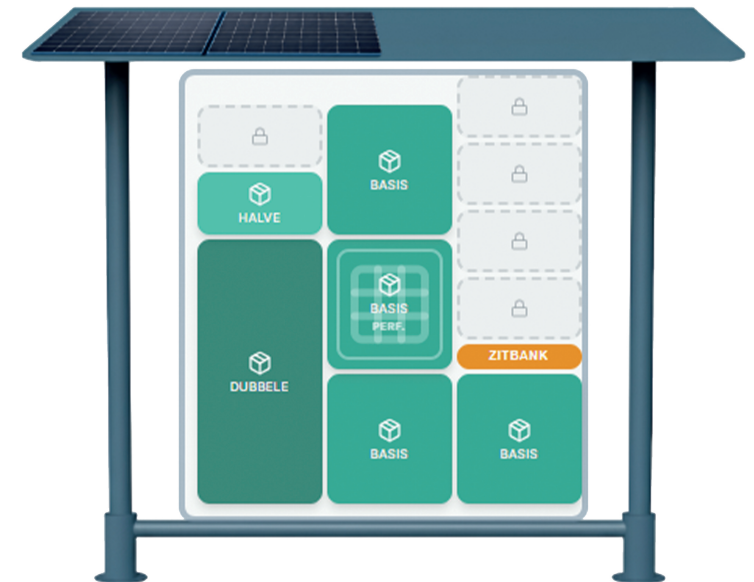

What can you find inside?

Flexible Modular Configurations

Cubby lockers are designed as modular systems that can be configured to match different environments and usage needs.

-  Multiple locker sizes
-  Expandable modules
-  Custom configurations
-  Designed for indoor and outdoor environments

Simple Smart Locker Access

01

Scan QR code

Use your smartphone camera to scan the QR code on the locker.

02

Choose locker size

Select the locker size that fits your needs.

03

Confirm and unlock

Confirm your selection and the locker unlocks instantly.

04

Store items safely

Place your belongings securely inside.

05

Return and close locker

When you're done, simply close and lock.

Build Your Smart Locker System

Cubby helps organizations deploy smart locker infrastructure quickly and efficiently.
